

# engineeringgreen2012

Presented by MD Chapter USGBC and MD Section ASCE, Stormwater Committee

## Presentation Information

### **Keynote Speaker:**

Mark J. Maloney, Director of Public Works, City of Shoreview, MN “Pervious Pavement as Public Infrastructure”

### **Presenters/Presentations:**

Stuart S. Schwartz, Senior Research Scientist, UMBC, Center for Urban Environmental Research and Education– ***Restoring Hydrologic Function in the Design of Sustainable Urban Landscape***

William Wolinski, P.E. Talbot County Dept. of Public Works, Bill Stack, P.E., Deputy Director, Center for Watershed Protection (CWP), Sadie Drescher, Watershed Planner, CWP – ***Improving Green Infrastructure Performance Using Gross Solids Management***

Todd Fritchman, Environmental Professional, Envirotech Environmental Consulting, Inc. – ***Implementation of comprehensive Stormwater Management Planning and Green BMPs for New Castle County, DE***

Rod Meyers, P.E., BASF, Tom Evans, MD Ready Mix Concrete Association, - ***Review of Chapter 5 as It Relates to the Use of Pervious Pavement and Performance of Completed Pervious Projects in MD***

Christine Papegeorgis, Ph.D. Environmental Planner, EA Engineering, Quoc A. Nguyen, P.E., Senior Env. Engineer, EA Engineering, E. Phillip McCormick, AIA, EA Engineering – ***The Role of Innovative Low Impact Design (LID) on SW Management in Creating a Sustainable Suburbia***

Dan O’Leary, P.E., NMP Engineering Consultants, Inc. – ***Hot Pavement, Cool Streams; Lessons Learned on the Intercounty Connector***

JoAnn Trach Tongson, RLA, Assoc. Principal, Mahan Rykiel Associates, J. Chris Earley, Principal, Greening Urban – ***Putting the Design in Environmental Site Design***

Nick Lindow, Ph.D, P.E., Biohabitats, Inc., Ashley Traut, Senior Manager, Blue Water Baltimore, Greg Hoffmann, P.E., Center for Watershed Protection – ***Piloting Blue Alleys in Baltimore***

Bradley Klindedinst, Project Manager, Stormwater Maintenance, LLC, Theodore Scott, P.E. Executive VP, Stormwater Maintenance, LLC, – ***Operations and Maintenance Issues with ESD Infrastructure***

Theodore Scott, P.E. Executive VP, Stormwater Maintenance, LLC – ***Efficiently Performing ESD Calculations in a Production Design Context***

Michael Furbish, President, Furbish Company, William F. Foley, CSI, CCPR, GRP, Sustainable Tech. Specialist, Tremco Inc. – ***Innovative Stormwater Management at NIH***
